

## CNFinance Announces Third Quarter of 2019 Unaudited Financial Results

GUANGZHOU, China, Nov. 20, 2019 /PRNewswire/ -- CNFinance Holdings Limited (NYSE: CNF) ("CNFinance" or the "Company"), a leading home equity loan service provider in China, today announced its unaudited financial results for the third quarter ended September 30, 2019.

### Third Quarter 2019 Operational and Financial Highlights

- Total loan origination volume<sup>[1]</sup> was RMB1,708.8 million (US\$239.1 million) during the third quarter of 2019, compared to RMB2,603.2 million in the same period of 2018.
- Total outstanding loan principal<sup>[2]</sup> was RMB11.9 billion (US\$1.7 billion) as of September 30, 2019, compared to RMB15.8 billion as of December 31, 2018.
- Total interest and fees income were RMB678.9 million (US\$95.0 million) in the third quarter of 2019, compared to RMB1,116.1 million in the same period of 2018.
- Net income was RMB177.3 million (US\$24.8 million) in the third quarter of 2019, compared to RMB234.9 million in the same period of 2018.
- Basic and diluted earnings per ADS were RMB2.59 (US\$0.36) and RMB2.35 (US\$0.33), respectively, in the third quarter of 2019, compared to RMB3.80 and RMB3.40, respectively, in the same period of 2018.

"During the third quarter of 2019, we generated total interest and fees income of RMB678.9 million, and net income of RMB177.3 million.

We continue to refine our collaboration model and are successfully turning many former competitors into partners. As of September 30, 2019, we have signed cooperation agreements with 1,150 sales partners, 600 of which have already facilitated loans since they joined our platform. Total loan origination volume reached RMB1.7 billion during the third quarter of 2019.

We also continue to explore cooperation opportunities with various financial institutions. During the three months ended September 30, 2019, we deepened cooperation with the existing trust companies and also began to collaborate with two new trust company partners, namely Hunan Trust Co., Ltd and Shaanxi International Trust Co., Ltd. We have successfully facilitated loans for the new trust company partners during this quarter. In addition, we have also proactively reached out to a number of banks and fund companies to discuss potential business opportunities. We will continue to explore opportunities with new funding partners.

As our collaboration model expands to scale and we further reduce funding costs, we believe we are well positioned to provide customers with more affordable and accessible financial services in the future, which will help the development of financial inclusion and further our efforts to meet the financial needs of micro- and small-enterprise owners."

### Third Quarter 2019 Financial Results

**Total interest and fees income** decreased by 39.2% to RMB678.9 million (US\$95.0 million) for the third quarter of 2019 from RMB1,116.1 million in the same period of 2018, primarily due to a decrease in the balance of average daily loans outstanding.

*Interest and financing service fee on loans* decreased by 39.3% to RMB675.5 million (US\$94.5 million) for the third quarter of 2019 from RMB1,112.0 million in the same period of 2018, primarily due to the decrease of the loan origination volume, which is a result of the Company's strategic focus on ensuring loan quality over loan growth and devoting its resources on the new collaboration model. This slowed down the loan facilitation and led to a decrease in the interest and financing service fee on loans.

*Interest on deposits with banks* decreased by 17.1% to RMB3.4 million (US\$0.5 million) for the third quarter of 2019 from RMB4.1 million in the same period of 2018, primarily due to a decrease in the balance of average daily bank deposits in the third quarter of 2019.

**Interest expense** decreased by 43.5% to RMB294.8 million (US\$41.2 million) for the third quarter of 2019, compared to RMB521.5 million in the same period of 2018, primarily due to the decrease in interest-bearing borrowings resulting from a general decrease of the loan origination volume.

**Collaboration cost for sales partners** increased to RMB57.4 million (US\$8.0 million) for the third quarter of 2019 from nil in the third quarter of 2018, primarily due to the development of the new collaboration model started in 2019.

**Net interest and fees income after collaboration cost** was RMB326.8 million (US\$45.8 million) for the third quarter of 2019, a decrease of 45.0% from RMB594.6 million in the same period of 2018.

**Provision for credit losses** decreased by 36.8% to RMB54.8 million (US\$7.6 million) for the third quarter of 2019 from RMB86.7 million in the same period of 2018. The decrease was mainly attributable to the combined effect of (a) the decrease in outstanding principal of non-delinquent loans and loans delinquent within 90 days which resulted in a

decrease in collectively assessed allowances and (b) an increase in the amount of NPLs, which led to an increase of provision of NPLs. "NPL" refers to a loan being delinquent for over 90 days.

**Other gains, net** increased to RMB61.8 million (US\$8.6 million) for the third quarter of 2019 from loss of RMB0.1 million in the same period of 2018, primarily attributable to the transfer of loans accounted for as sales. Such transfer improved the Company's ability in disposing non-performing assets and contributed a net gain of RMB55.3 million.

**Total operating expenses** decreased by 40.9% to RMB112.7 million (US\$15.8 million) for the third quarter of 2019, compared with RMB190.6 million in the same period of 2018.

*Employee compensation and benefits* decreased by 53.9% to RMB53.0 million (US\$7.4 million) for the third quarter of 2019 from RMB114.9 million in the same period of 2018, primarily due to a decrease in the number of sales personnel with the development of the new collaboration model, under which borrowers are introduced by the sales partners who have signed cooperation agreements with us through collaboration model.

*Share-based compensation expense* decreased by 59.6% to RMB4.0 million (US\$0.6 million) for the third quarter of 2019 from RMB9.9 million in the same period of 2018. According to the Company's share option plan, approximately 60%, 20% and 20% of the option grants vested during 2017, 2018 and 2019, respectively. Related compensation cost of the option grants was recognized over the requisite period.

*Taxes and surcharges* decreased by 45.6% to RMB11.8 million (US\$1.7 million) for the third quarter of 2019 from RMB21.7 million for the same period of 2018, primarily due to the fact that the non-deductible value added tax ("VAT") decreased from RMB18.7 million in the third quarter of 2018 to RMB8.0 million (US\$1.1 million) in the same period in 2019. The decrease of VAT was attributed to the "service fee charged to trust plans" which was a non-deductible item. According to the current regulations in China, "service fees charged to trust plans" led to a 6% VAT on service fees charged to trust plans on the subsidiary level while no input VAT should be recorded as costs on a consolidated trust plan level.

*Other expenses* increased by 34.9% to RMB35.2 million (US\$4.9 million) for the third quarter of 2019 from RMB26.1 million in the same period of 2018, primarily due to (a) the increase in consulting fee paid to professional consultants such as auditor and lawyer during the ordinary course of business and (b) the increase of IT maintenance fee mainly associated with the development of apps and technology platform to facilitate our collaboration model during the period.

**Income tax expense** decreased by 24.8% to RMB62.0 million (US\$8.7 million) for the third quarter of 2019 from RMB82.5 million in the same period of 2018, primarily due to a decrease in the amount of taxable income.

**Net income** decreased by 24.5% to RMB177.3 million (US\$24.8 million) for the third quarter of 2019 from RMB234.9 million in the same period of 2018.

**Basic and diluted earnings per ADS** were RMB2.59 (US\$0.36) and RMB2.35 (US\$0.33), respectively, in the third quarter of 2019, compared to RMB3.80 and RMB3.40, respectively, in the same period of 2018. One ADS represents 20 ordinary shares.

As of September 30, 2019, the Company had RMB1.5 billion (US\$0.2 billion) of **cash and cash equivalents**, RMB1.0 billion (US\$0.1 billion) of which was from structured funds that could only be used to grant new loans and conduct similar activities. As of December 31, 2018, the Company had RMB3.2 billion cash and cash equivalents, RMB2.5 billion of which was from structured funds.

The aggregate delinquency rate for loans originated by the Company, which is calculated by dividing (i) total balance of outstanding loan principal for which any installment payment is past-due (for one or more days) as of a particular date; by (ii) the aggregate total amount of loans we originated since 2014, decreased from 7.6% as of December 31, 2018 to 6.2% as of September 30, 2019.

[1] Refers to the total amount of loans CNFinance originated during the relevant period.

[2] Refers to the total amount of loans outstanding for CNFinance at the end of the relevant period.

## Business Outlook

For the fourth quarter of 2019, based on the information available as of the date of this press release, we expect net income to be between RMB100 million and RMB150 million.

The above outlook is based on the current market conditions and reflects our current and preliminary estimates of market and operating conditions, which are all subject to substantial uncertainty.
