We continuously refined policy of repurchase instalment granted to sales partners, which has helped ease their liquidity pressure and grow their business. In order to improve overall asset quality, we focused on growing business in China's core areas of core cities. In 2023, over 90% of our loans were facilitated in Tier 1 and Tier 2 cities. In the year of 2024, to maintain our momentum of growth given the current market condition, we will make innovation a more important part of our business. Designing and promoting more products to cover more customers will remain an important part of our major tasks. We will also keep investing in technology to continuously refine the overall loan decisioning process, therefore cut expenses and increase our margin."
